

hugger-mugger

This magazine explain all of my memories, like dairy and about the early days which I spent in America.

In fact I usually took many pictures with my cellphone camera. Especially on the way home from school. I have wanted a memorial from most of the scenes that I saw. Also when my professor told me make your magazine by own topic it was made good idea to pay attention more to my surrounded.

I'm going say about from what I see around me. Because I walk to school every days. Half and hour to go, half and hour to come back. In fact totally one hour I'm out side, walk among the people, see odd events, new street, new places and new things. Everything is new. Here is another kind of life, As if I came from another planet. From A to Z. Even animals like lizards, squirrels, docks and raccoons, to trees and nature. I pay attention more to people, to their attitude, to their behaviour, to their houses, to the garbage on the street.

I just say that I miss these kindest people. I only want them here. They are my parents. My parents who are the lovely people love me a lot and everyday think about me, about me to feel comfortable and always when I think to them I cry, I really want to see them just for seconds and hug them. About my sister who I cant talk with her as much as talk with my parents, because she studied in another city and she cant access to Oovoo easily and she thinks about me a lot. And I just can put her picture on my desktop to see her more. I can't say that how is the missing feeling is bad...

# First

First day after eighteen days that I had to move and began new life independently. Especially when I look at my luggages and bags which they had special composition. I really feel bad and, this was the first time that I had to handle my life by myself, and I'm really afraid. This is a big change for me at 27 years old age.

The hard days ,that I was looking for house. And How it was hard for me to find a good place near the school.

Not only my problem was finding the house, but also finding a appropriate roommate was harder. ■

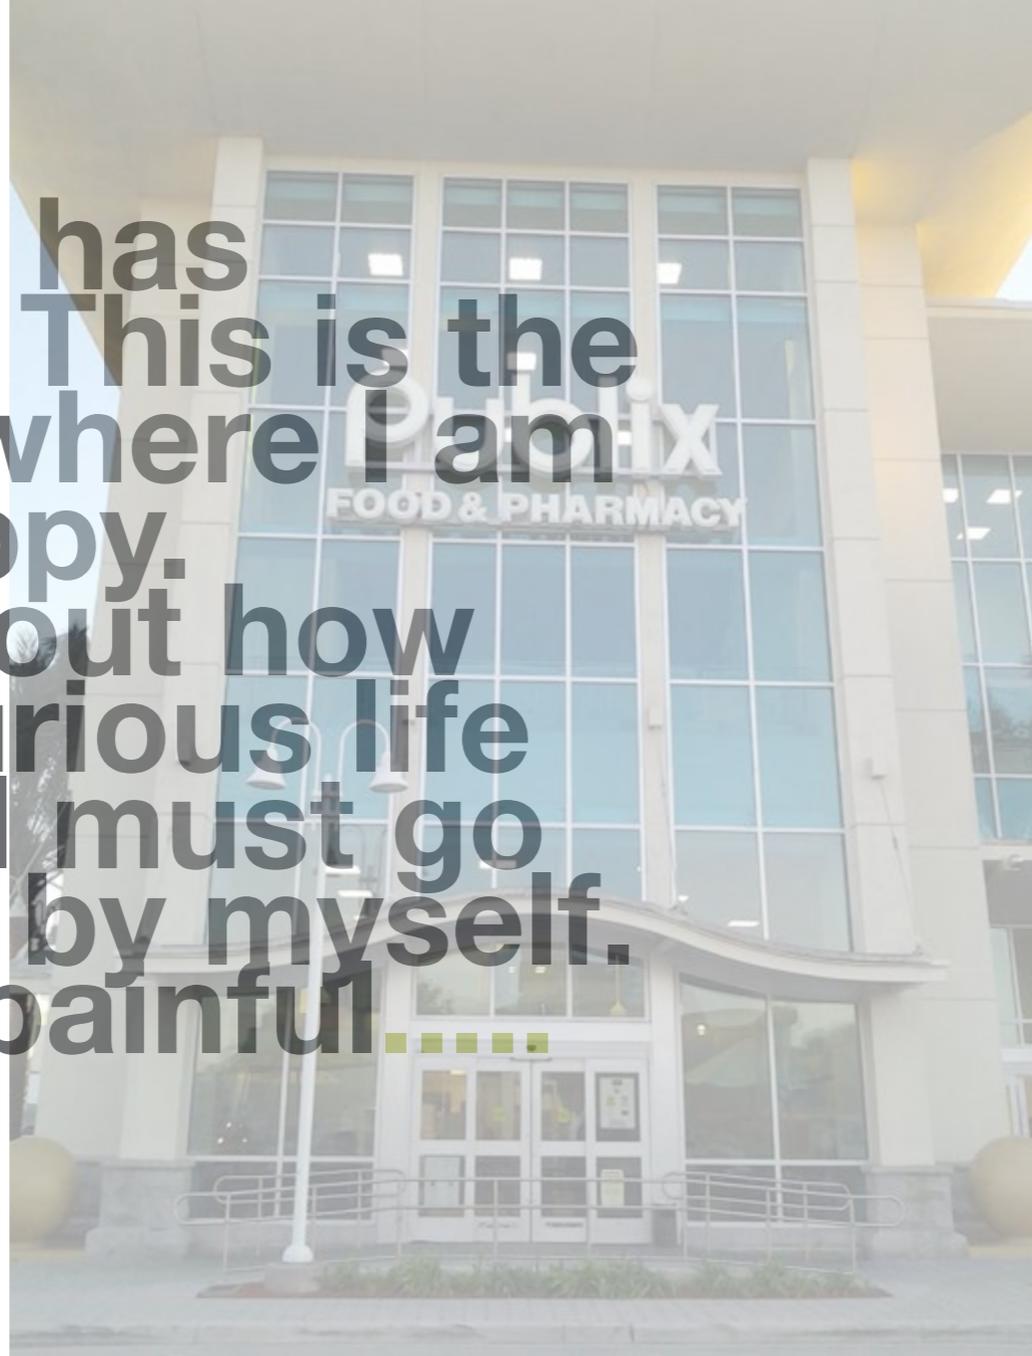

Finally, I found one room in one house close to school. So I rent it . on one aspect it was good. Because on one hand my landlord was Turkish woman and her culture was similar to us a lot, on the other hand it wasn't necessary to buy homes' stuff. At the end I settled in my room.

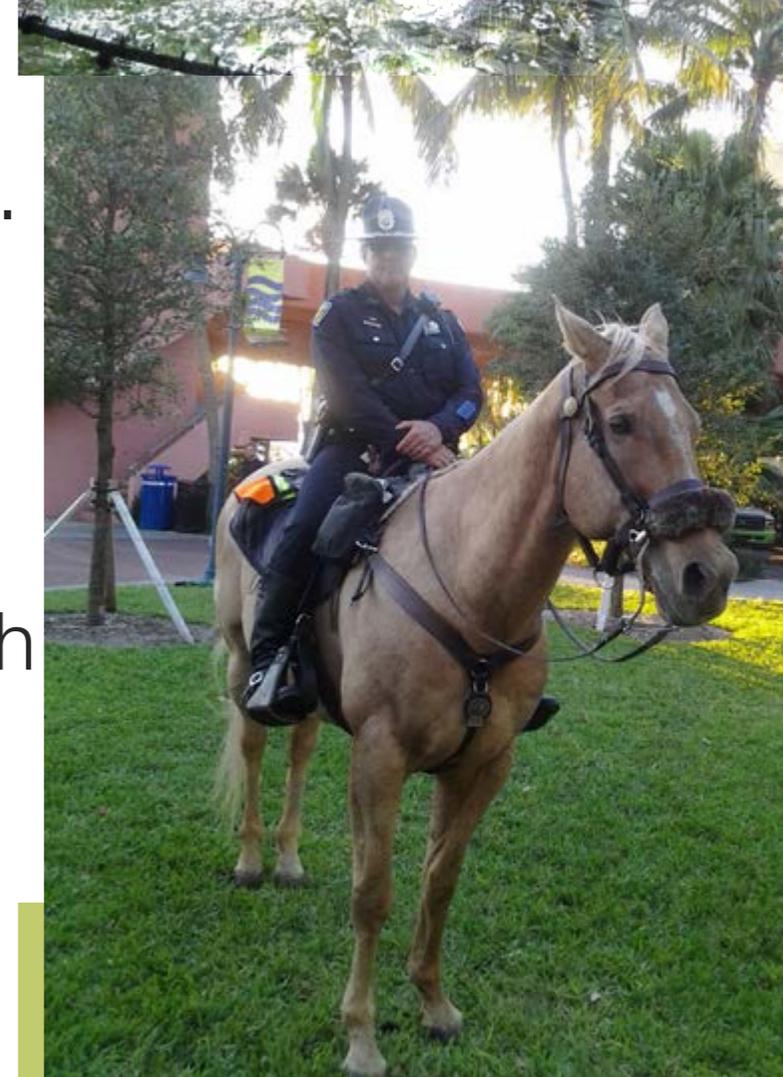

It was too difficult for me to get used to a home environments.

**E**ven the food I eat has changed. This is the grocery, where I am never happy. I think about how I had luxurious life and now I must go shopping by myself. It is very painful.....

Florida actually has a lots of attractions and wherever it can be fun and memorable. The policeman riding on the horse was one of the most amazing things, which I saw in Florida. Because of these difference

The scenes which I grab my attention in the way of school to home.

# Charming Florida

---

In the earlier days of living in Florida, I was curious to see popular places because I knew that when the time pass, I become busy and there is no time to visit them.

Then one day I made decision to go to Science And Discovery Museum alone.

Sometimes, in order to prove to my boyfriend that I'm not with someone, I am force to take pictures of myself where I am. For instance I had to say that I'm in library or I'm in gallery or I'm in university.

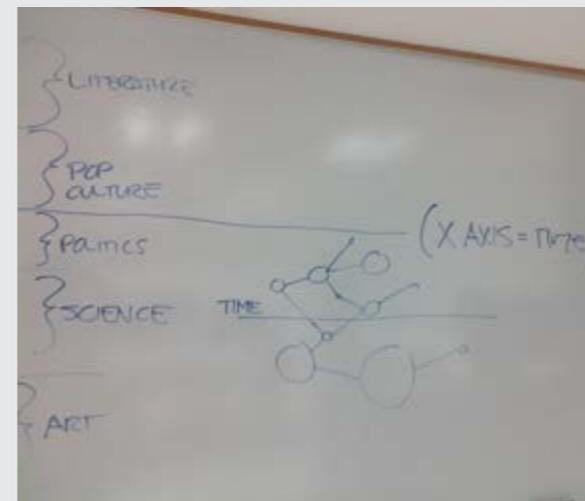

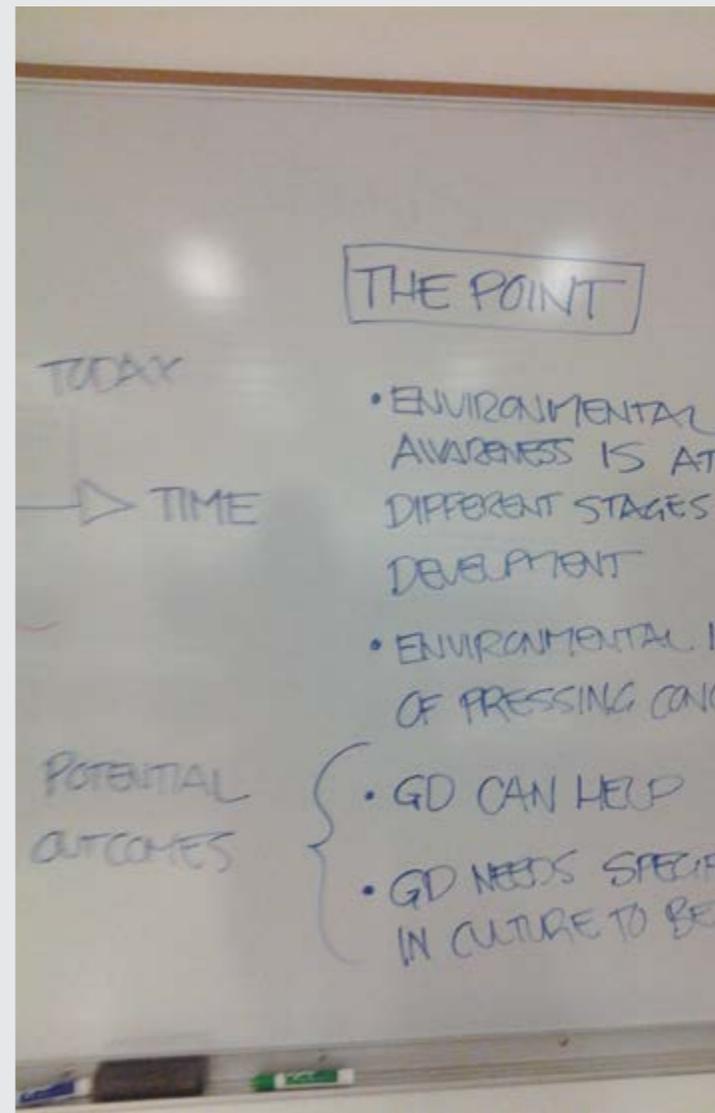

One of the amazing thing which saw in this period was really interesting that one man who played drums by different kind of pots.

When I went out with my landlord to enjoy, I was always worried about my study and I really couldn't enjoy very well. But sometimes I told myself now you are out and cant come back to do your homework, So it is better to smile and enjoy.

# When my camera plays as scanner

Some times I took picture form magazines or books for my university projects to get idea. Sometimes because to remember some information better, I had to take a picture from my professor's explanation or some hours data on the doors.
